Introduction

Use this document to help you reserve and access the lab environment for your course.

Create an account to request your environment

IBM employees can use their IBM credentials to access IBM Technology Zone or IBM Cloud.

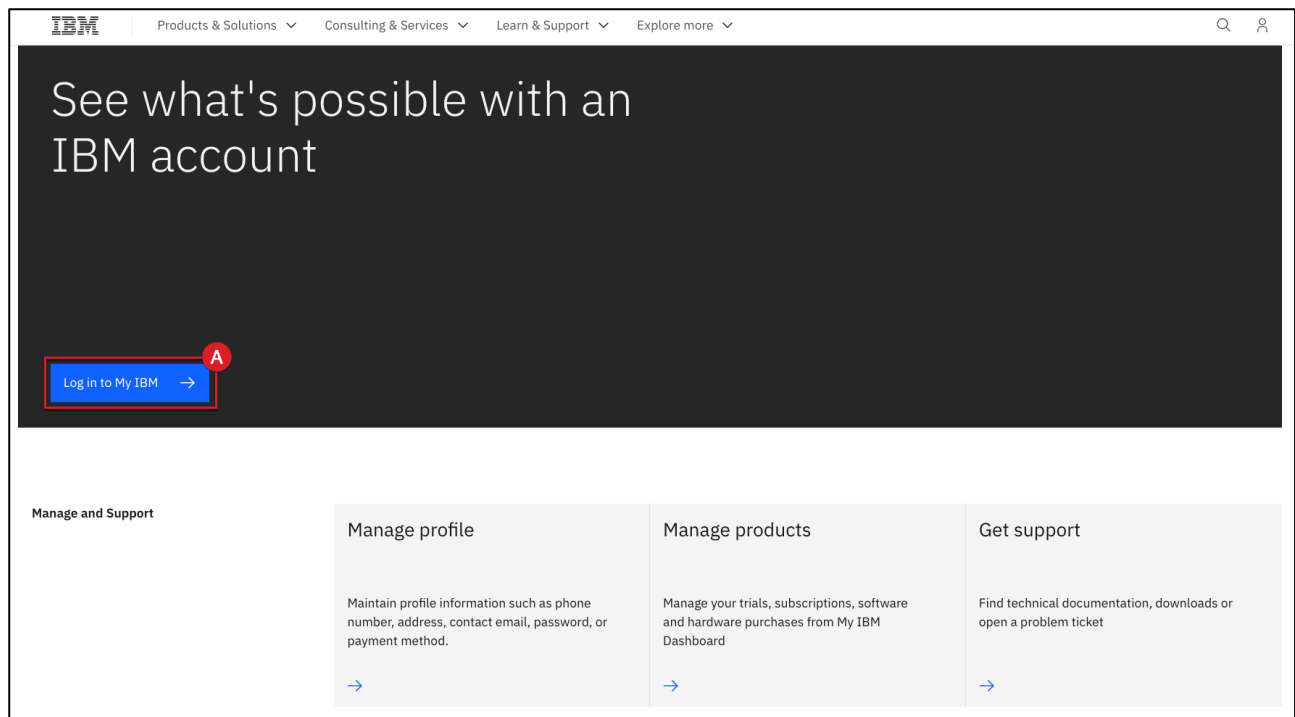

Business Partners must use an IBMid for IBM Technology Zone. If you do not have an IBMid, you can create one by using steps in this document. There is no cost to creating an IBMid.

You might also require an IBM Cloud account for some lab environments.

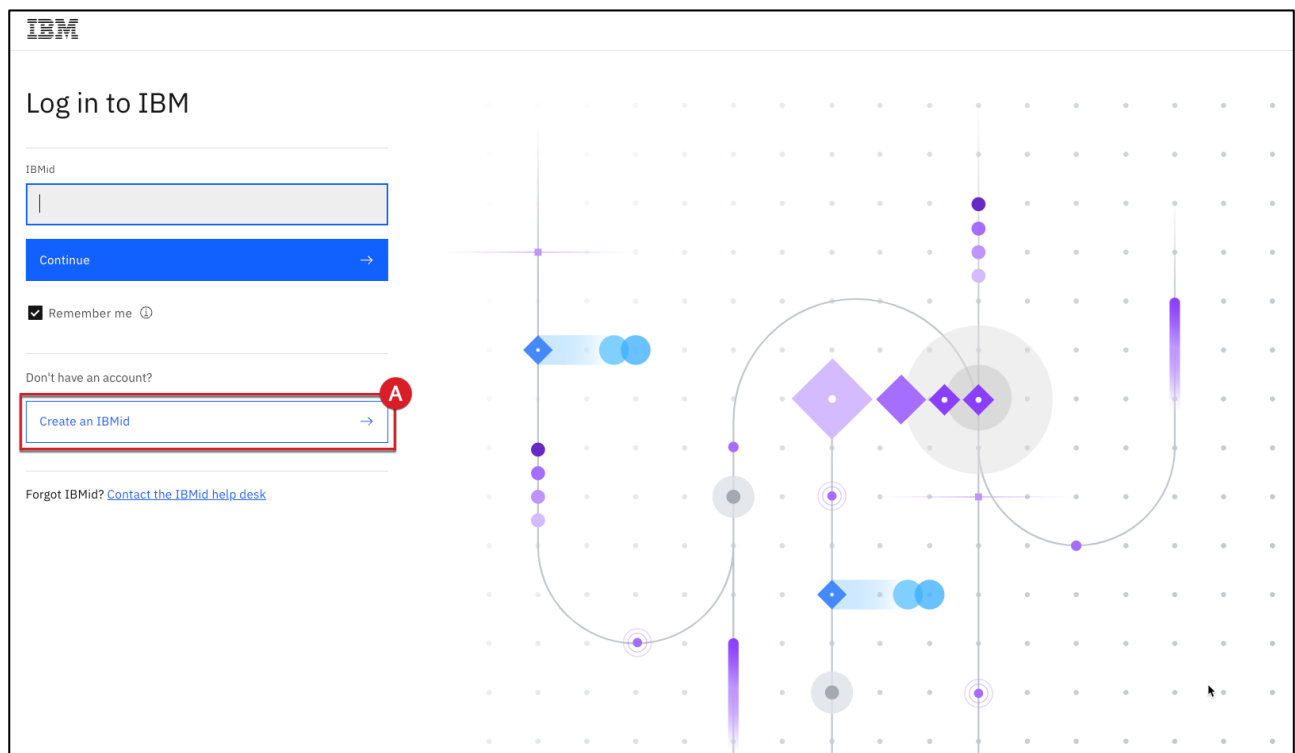

Additionally, you might need to configure an OpenVPN connection to be able to access the lab environment.

Creating an IBMid

1. In your web browser, go to the [IBM account page](https://www.ibm.com/account/us-en/) (https://www.ibm.com/account/us-en/).
2. Click **Log in to My IBM** (A).

1. The Log in to IBM page is displayed. Click **Create an IBMid** (A).

2. On the **Create an IBMid** page, enter the following information:

- Your business email address (A)
- A password for your IBMid account (B)
- First name (C)
- Last name (D)
- Your country or region of residence (E) and state or province (F)
- If you select that you are not a student (G), then enter the name of your company (G)
- Click **Next** (I) to continue

The screenshot shows the IBM 'Create an IBMid' page. On the left, there is a 'Welcome to IBM' section with the text 'Create an account to access trials, demos and services.' On the right, the 'Create an IBMid' section is active, with a link for 'Already have an IBM account? Log in'. Below this is a form titled 'Account information'. The form contains several fields: 'Business email' (labeled A) with the value 'itzuser@email.com', 'Password' (labeled B) with a masked value, 'First name' (labeled C) with the value 'ITZuser', 'Last name' (labeled D) with the value 'Techzone', 'Country or region of residence' (labeled E) with a dropdown menu showing 'United States of America', and 'State or province' (labeled F) with a dropdown menu showing 'Texas'. Below these is a section 'Are you a student?' (labeled G) with radio buttons for 'Yes' and 'No' (selected). Below that is a 'Company' field (labeled H) with the value 'IBM'. At the bottom of the form is a 'Next' button (labeled I). Below the form is a 'Verify email' link and a 'Create account' button.

3. You are now prompted to verify your email and complete your account creation. Enter the code that was emailed to you in **Verification token** (A), and then click **Create account** (B).

You can resend the verification token in **43** seconds

I'd like IBM to use my contact details to keep me informed about products, services, and offers. More information on how IBM uses data and ways to [opt out](#) can be found in the [IBM Privacy Statement](#).

☒ Email

I accept the product [Terms and Conditions](#).

Create account

4. The **About your IBMId Account** page is shown. Click **Proceed** (A).

IBM

Welcome to IBM

Create an account to access demos and services.

About your IBMId Account

By creating, or using, an IBMId to access an IBM Web site or other service, you acknowledge that you have read, understand, and agree to be bound by the below terms, in addition to the terms in the IBM Terms of Use, the IBM Privacy Agreement and the "About your IBMId Account Privacy" section of this notice provide details on how IBM protects your personal data.

Most IBMId accounts are individual IDs, meaning you manage your own account information and access your account through the IBMId login service (i.e. IBMId is the authenticating agency).

If your account is created using an email address containing a domain owned by an organization which you are employed by, contracted to, or volunteer for, your organization can:

- inquire about the status of your ID
- request your account settings (including your personal information)
- at its option, convert it to an enterprise ID.

If your account was created as (or is converted to) an enterprise ID, your organization manages your account information. It is also the authenticating agency for your ID, meaning your access is controlled by your organization's login service.

- About your IBMId Account Privacy
- What data does IBM collect?
- Why IBM needs your data
- How your data is obtained
- How IBM uses your data
- How IBM protects your data
- How long we keep your data
- Your rights

I acknowledge that I understand how IBM is using my Basic Personal Data and (if applicable) how my organization may become the authenticating agency for my IBMId account. I certify that my age is at least 18 years old.

Cancel Proceed

5. After a few minutes, you will receive an email confirming that your IBMId has been activated.

Note: The first time that you log in using your IBMId, you will be sent another code to verify your log in.

Creating an IBM Cloud Account (optional)

If you already have an IBM Cloud account, you can skip this task.

1. Go to IBM Cloud (<https://cloud.ibm.com/registration>).
2. Enter your email address (A) and a password (B), and then click **Next** (C).

- ✓ **Unlock the full IBM Cloud Catalog**
Get started with everything you need to take your projects to the next level. Including always-free products like IBM Watson® APIs. They never expire and you can't be charged for them—ever.
- ✓ **200 USD Cloud Credit for free**
Try any IBM Cloud product with \$200 in credit to use over the next 30 days.
- ✓ **Get started for free**
We ask for your credit card to verify your identity. You will not be charged for any usage within the free tier. Learn more: www.ibm.com/cloud/free.

After you complete the registration process, you receive an email to activate your account. This can take a few hours to process. After you receive the confirmation email, follow the instructions provided in the email to activate your account.

Configuring OpenVPN

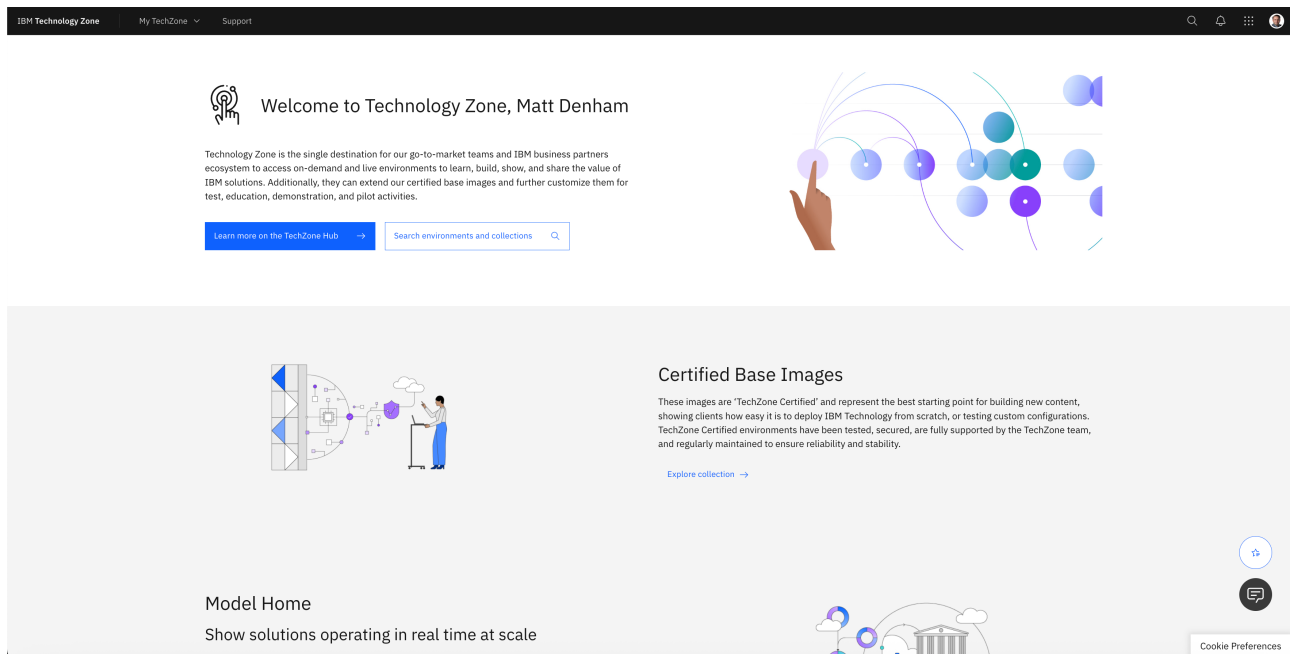

Some lab environments require an OpenVPN connection, even if you are logged onto the IBM network using the IBM standard Cisco AnyCloud VPN. If you must use an OpenVPN connection, see the following documents:

- On Microsoft Windows, see OpenVPN Certificate installation procedure for Windows 10 (<https://ibm.seismic.com/Link/Content/DCPG9MpPBfdQ88MRdBf6bRQcHXc3>).
- On MacOS, see MAC OS - OpenVPN Certificate installation procedure for MacOSx (<https://ibm.seismic.com/Link/Content/DC7VH484fPVm78hXXj3J2G4mmT9B>).

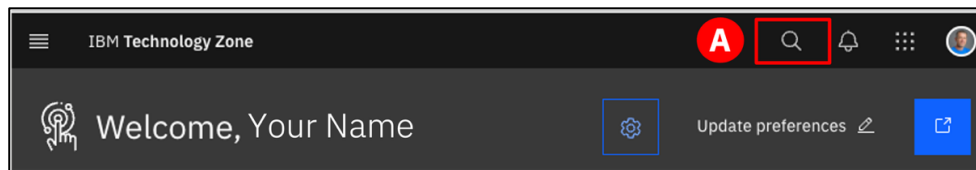

Reserving your environment

It can take some time for your lab environment to be created. Alternatively, you can reserve a time for when you would like the lab to be available for you.

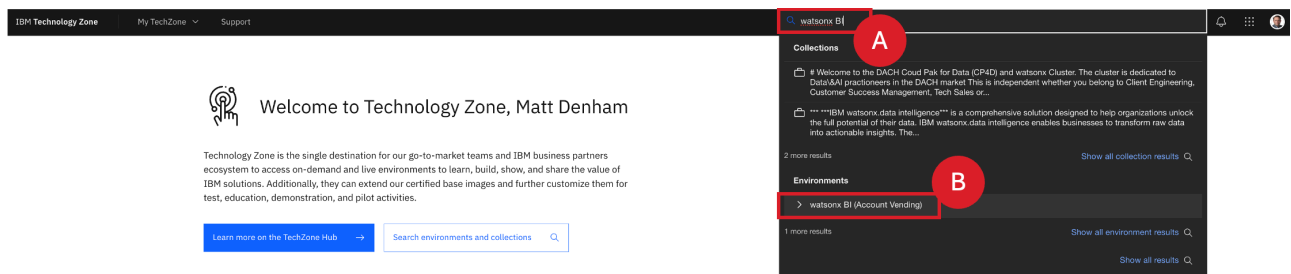

1. Go to IBM Technology Zone (<https://techzone.ibm.com>), and log in.
2. You will see the landing page, which looks like the following image.

3. Click the **Search (A)** icon (looks like a magnifying glass).

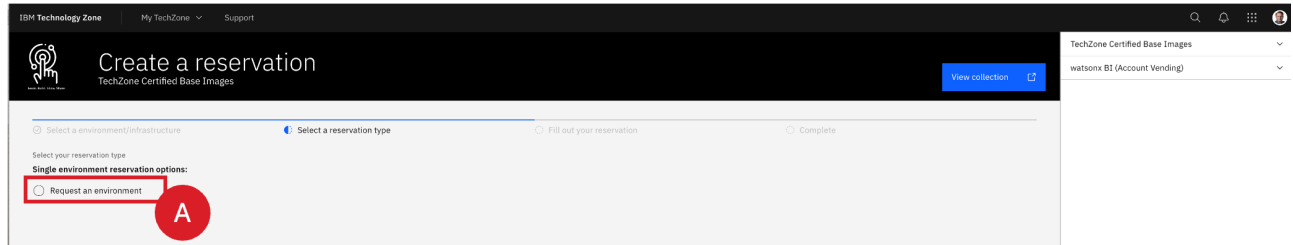

4. Enter **watsonx BI** in the **Search (A)** box, and then select **watsonx BI (Account Vending)** (B).

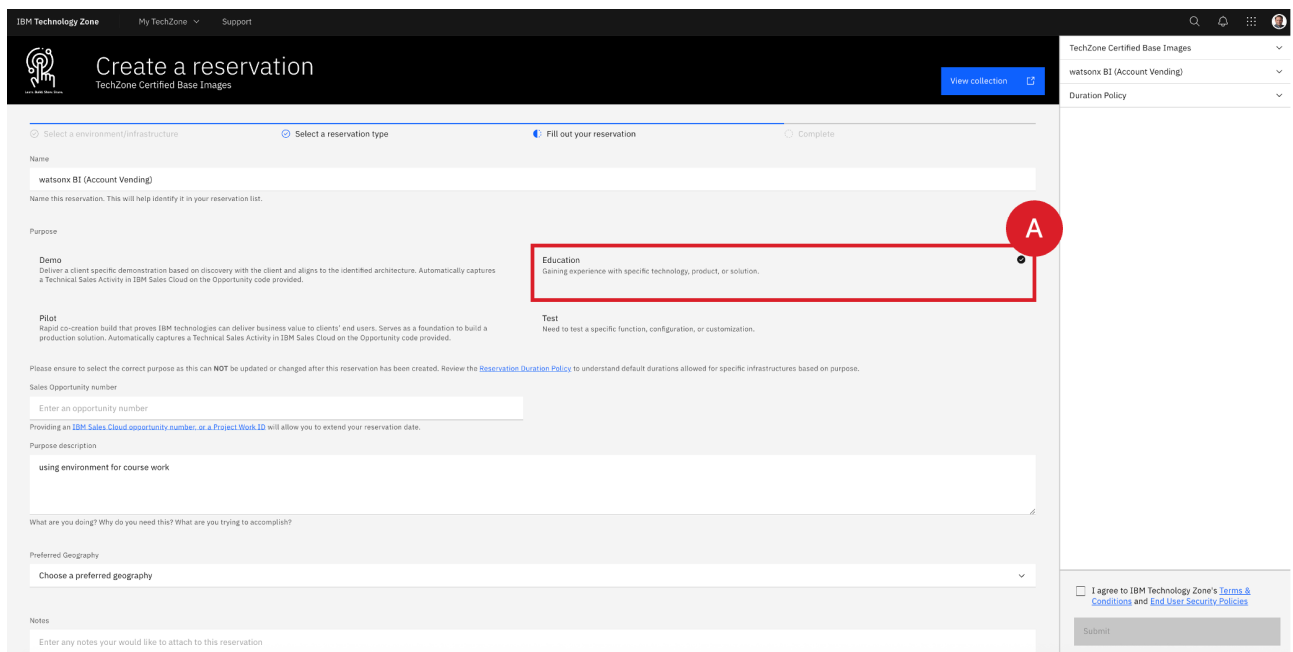

⚠ **Note:** If you have trouble locating the **watsonx BI** service, click [this link](#) to the correct environment.

5. The **Create a reservation** page is displayed. Click **Request an environment** (A).

The options for reserving your environment are displayed. Complete the form to reserve your environment.

6. Click the **Education** (A) tile.

7. Enter a description for what you are doing in **Purpose description** (A). For example, enter: **Using the environment for course work**. Then select a **Preferred Geography**. The start/end times should be defined automatically, but adjust those as needed.

Note: Ensure that you enter or select values for all the required fields in the form. Required fields are highlighted in red and show an exclamation mark.

8. After you have completed the form, select **I agree to IBM Technology Zone's Terms and Conditions and End User Security Policies** (A), and then click **Submit** (B).

After you submit your reservation request, you will receive a confirmation email from IBM Technology Zone, but the environment will not yet be ready.

You will receive additional emails (**as many as three total!**) that tell you when your environment is being provisioned, and again when the environment is ready.

Follow the steps in the emails from IBM Technology Zone to connect to your environment.

Note: If you have any difficulties provisioning your environment, visit the IBM Technology Zone Help page (<https://techzone.ibm.com/help>).

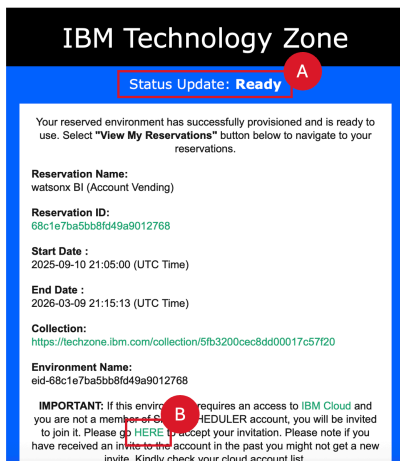

If you have an issue with the site, you can open a support case (https://ibmsf.force.com/ibminternalproducts/s/createrecord/NewCase?language=en_US).

Alternatively, you can send an email to techzone.help@ibm.com. This contact information is also provided in the emails that you receive from IBM Technology Zone.

Preparing your lab environment

Joining your IBM Cloud tenant

1. Don't perform any tasks until you receive the email that your cloud tenant is available (the email should be from IBM Technology Zone with a subject of **Reservation Ready on IBM Technology Zone**). Ignore the other emails and open this email, and note the Status Update of **Ready (A)**. From the sentence contained within the email **Please go HERE to accept your invitation**, click the **HERE** link (B).

⚠ Note: If a significant amount of time passes (say 30min) and you don't receive the above email, navigate to <https://cloud.ibm.com/notifications> and check to see if you've been invited to a tenant, then look for the **Join now** link that matches the next screenshot.

- The **IBM Cloud Notification** pages opens. Click the **Join now** link (A) contained within the message.

Notifications

View personalized notifications that are sent because you have an affected resource. Global notifications that affect all users in the platform can also be found in this list. To limit the types of notifications that you receive, go to your profile and configure notification preferences.

Action required: You are invited to join an account in IBM Cloud

Update time: 10 Sep 2025, 5:14 PM local time

Severity: Normal

Hi matthew.denham@ca.ibm.com,

DTE DTE Cloud 2 invited you to join the following IBM Cloud account: itz-saas-610 (Account ID: 67897717e145e8a642c9aa35cd5c8d).

[Join now.](#)

The link to join the account expires in 30 days.

Thank you,
IBM Cloud

In case of any issues, please contact [IBM Cloud support](#).

- The **Join IBM Cloud** page opens. Select the checkbox that you accept the product terms and conditions checkbox (A).
- Click the blue **Join account** button (B).

By providing my contact details, I acknowledge that IBM will keep me informed about products, services, and offers. More information on how IBM uses data can be found in the [IBM Privacy Statement](#). California residents, review the [California Supplemental Privacy Statement](#).
☒ I accept the product [Terms and Conditions](#) of this registration form.

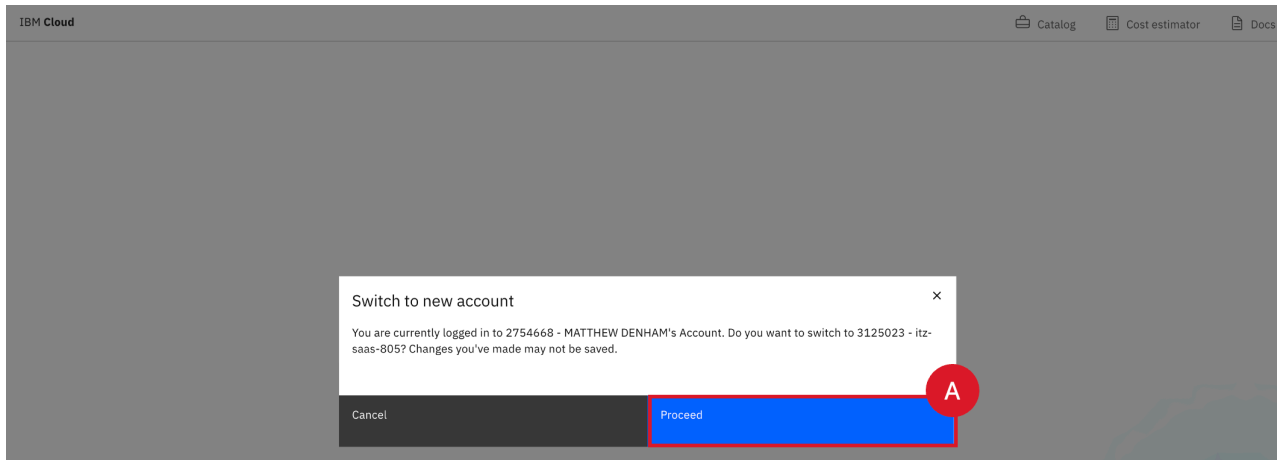

[Unlock the full IBM Cloud Catalog](#)

Get started with everything you need to take your projects to the next level. Including always-free products like IBM Watson® APIs. They never expire and you can't be charged for them—ever.

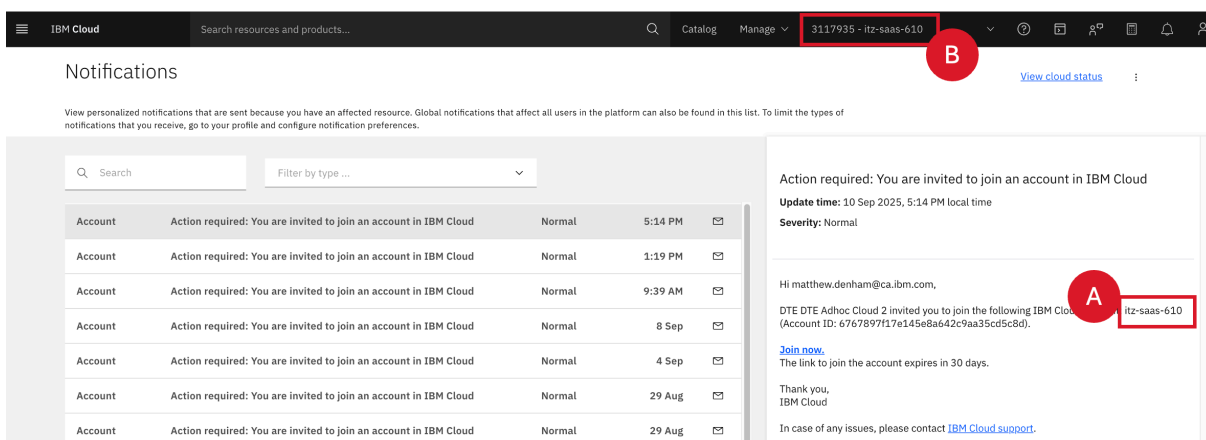

[Join account](#)

Cookie Preferences

5. The **Switch to new account** page opens. Click the blue **Proceed** button (A).

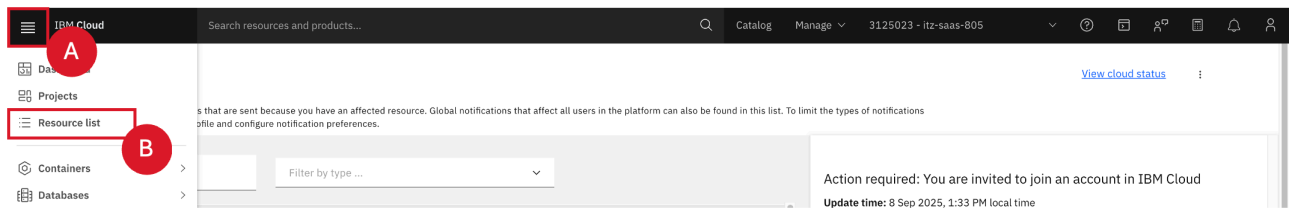

6. Double check that you are in the correct tenant by confirming that the account in the **join** message (A) matches the tenant in the drop-down (B). If not, click the drop-down and select the correct tenant.

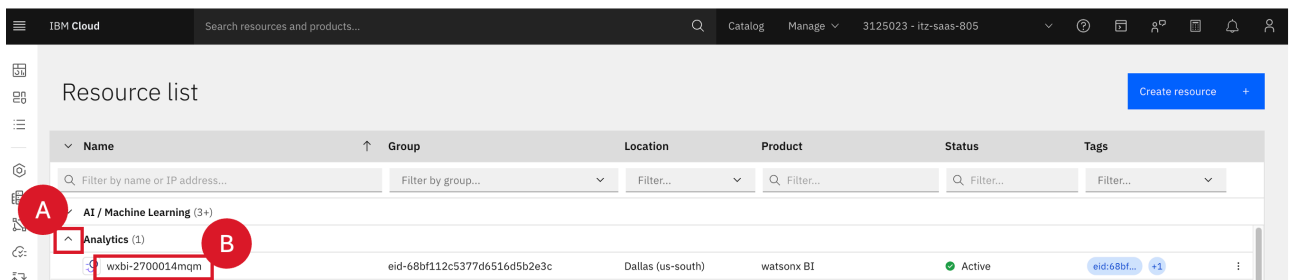

Accessing watsonx BI and loading sample data

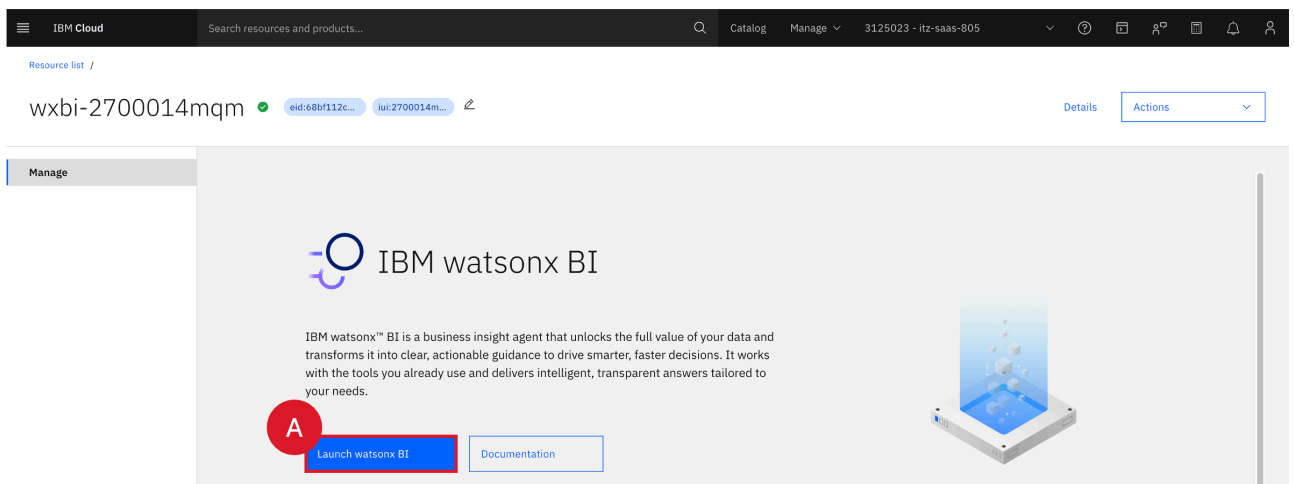

1. Click on the **Navigation Menu** (A) and click on **Resource list** from the panel (B).

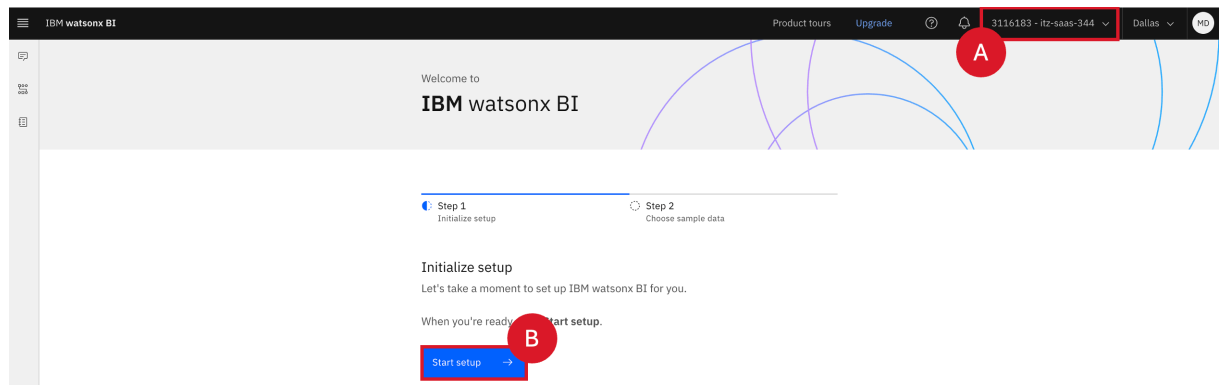

2. Expand the **Analytics** section (A) and click on the name starting with **wxbi** followed by a combination of letters and numbers (B).

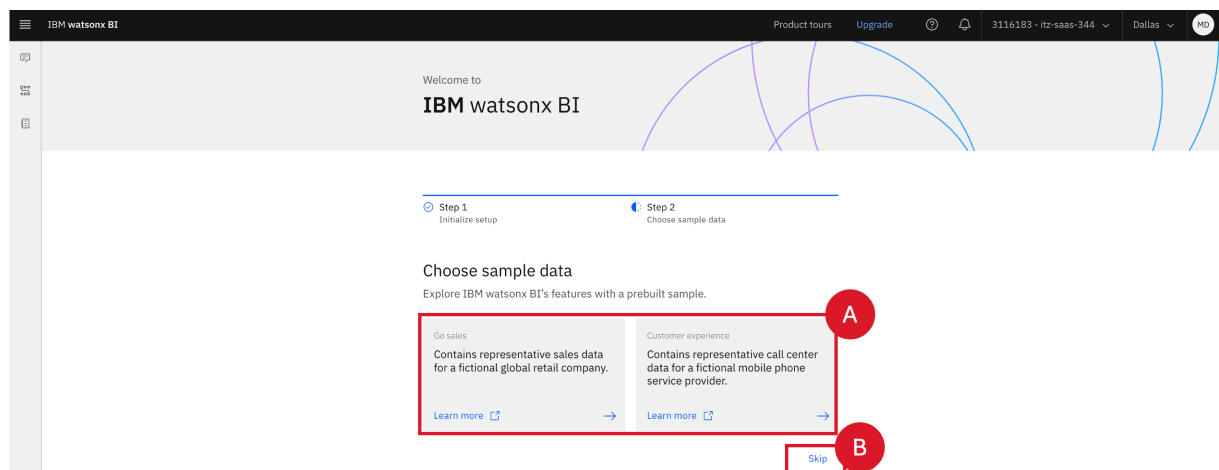

3. Click the blue **Launch watsonx BI** button (A).

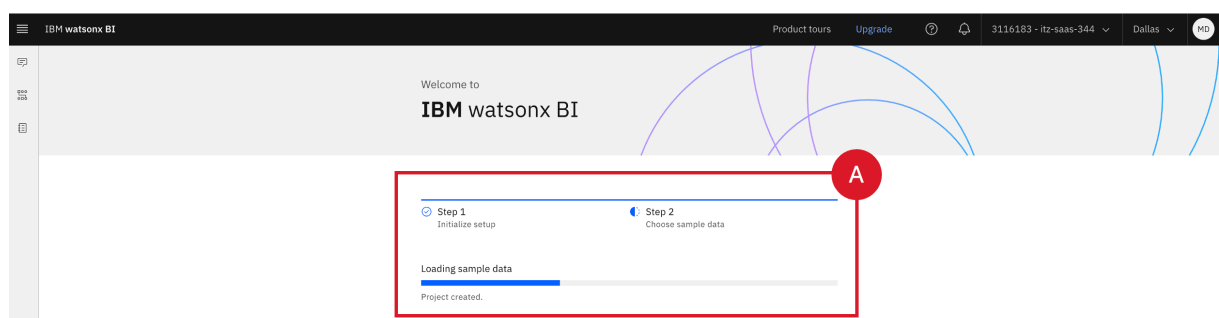

4. You should land on the URL <https://dataplatfom.cloud.ibm.com/wxbi/configuration>. Check once again that you're in the correct tenant (A) then click the blue **Start setup** button (B).

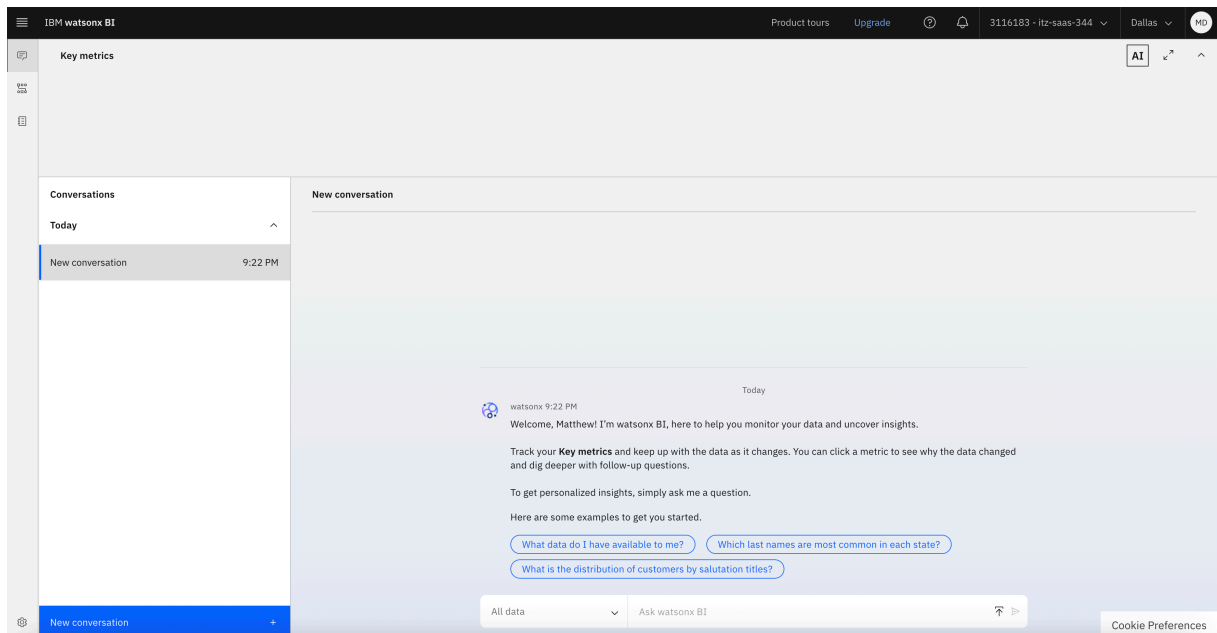

5. The **Choose sample data** window appears. The accompanying lab does not rely on the embedded watsonx BI sample data, however you can optionally choose either data source if you want to explore the data yourself (A) or skip adding the sample data (B). The **Customer experience** sample was chosen in this example.

6. The sample data loads into the system (A).

7. You will land in the watsonx BI conversation interface, and can now begin your lab in the accompanying IBM watsonx BI Lab Guide

Getting help

If you require assistance in interpreting any of the steps in this lab, please post your questions to the [#data-ai-demo-feedback](#) Slack channel (IBMers only). Business Partners can request help at the [Partner Plus Support](#) website.

For troubleshooting tips, see the TechZone Set Up Troubleshooting Guide (<https://ibm.seismic.com/Link/Content/DCGT3pQ7hHM828WDQ86R7Tf6gpPV>) for help with common issues and solutions when using IBM Technology Zone. Additionally, go to the IBM Technology Zone Help page (<https://techzone.ibm.com/help>). If you have an issue with the site, you can open a support case (https://ibmsf.force.com/ibminternalproducts/s/createrecord/NewCase?language=en_US). Alternatively, you can send an email to techzone.help@ibm.com. This contact information is also provided in the emails that you receive from IBM Technology Zone.

For example, for watsonx.ai, help with the watsonx.ai product itself is available in the #watsonx-ai-feedback (<https://ibm-technology-sales.slack.com/archives/C05FWDB9RSA>) and #watsonx-ai-enablement (<https://ibm-technology-sales.slack.com/archives/C057G8L357W>) Slack channels (IBMers only).

Additionally, see the watsonx.ai documentation (<https://datapatform.cloud.ibm.com/docs/content/wsj/getting-started/welcome-main.html?context=wx&audience=wdp>).
